

October Agenda

- KCIA Master plan update.
 - Having to relocate “unsafe” fuel farm is triggering reactivation of the master plan. Presented 3 different options. There probably won’t be an environmental impact study.
 - National Guard is proposed to be relocated out of the airport due to their lack of aviation assets.
 - UPS air traffic will grow (independent of master plan)
 - More hangars would increase volume on the north end of the airport, would also increase ground noise affecting the neighborhood. No mitigation plan for this.
 - Airport cannot control the number of airplanes flying in and out
- Tiny House Village
 - Barbara presenting on tiny house village, currently slated to close in March
 - Social workers will be reallocated to help residents find more permanent housing
 - More notes/info on community facebook page
- Environment Justice with the Port of Seattle
 - See Andrew to sign up for the boat tour
- Ardagh
 - Will need a hearing with the county to move forward
